### Create a Game Plan

Walk through your home, room by room as if you are a buyer and take notes on what needs to be done. Consider having a home inspector come and see if anything needs to be repaired.

> "Buyers decide in the first 8 seconds of seeing a home if they're interested in buying it. Get out of your car, walk in their shoes and see what they see within the first 8 seconds."

> > - BARBARA CORCORAN

Use this checklist to do a walk through of your home, room by room as if you are a buyer. Check off what needs to be done, and then check off once you complete. Consider having a home inspector come and see if anything needs to be repaired.

It's important to thoroughly evaluate the market to determine the market value of your home. Here's why:

- Properties that are priced right from the beginning typically sell for more in the end.
- If you price your home too high, the home will stay on the market longer. The longer a home stays on the market, the less it will be shown.
- Your property attracts the most interest when it is first listed, so it is crucial to price it correctly initially.

Below are the pros and cons of pricing your home above, below, or at market value.

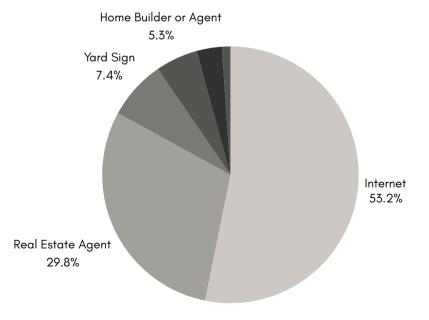

More than likely, the first place potential buyers will see your home is online. This is why we work hard to reach as many buyers as possible online, and strive to make the best impression possible through our online listings.

When it comes to online marketing, many agents will try to convince you that they have some sort of secret weapon to market your home.

The truth is, every agent's listings is syndicated by the MLS to thousands of websites automatically. If a buyer is house shopping, and your house is on the market, it is basically impossible for them to miss it. Typically, the factors that prevent a home from selling are price or the way it is inputted and displayed in the MLS.

#### Home Buyers are Shopping Online

The photos of your home directly influence whether or not a potential buyer will schedule a showing of your home or not. It is crucial that we take high quality, attractive photos of your listing showcasing the best qualities and features of your home.

Because of this, we work with the top real estate photographers in the area to capture your home in the very best light. This is a service paid for by me. Never let your agent skimp on professional photos and post photos taken with a cell phone on the MLS.

The photos to the left are examples from pervious listings of Lone Pine Real Estate Company.

#### How Showing your Home Works

- We will decide together on how to handle showings. We can set parameters as to the hours and days that showings are allowed, and how to notify you in advance.
- Homes show best when the homeowner is not present, but if this is not possible, we will work together to create the best experience for the buyer that also fits your lifestyle.
- Usually we use a mechanical lockbox that allows buyers' agents to access your house key.
- I will try to get feedback from each showing and pass that information back to you.

#### What to Expect Next

#### **Negotiating Offers**

As the showings start rolling in, we'll start getting feedback and/or offers from the prospective buyers. We will work together to negotiate the offers we receive to achieve your ultimate goal whether that be a quick sale, maximizing profit, or perfect timing.

#### Under Contract

Once the purchase agreement is signed by all parties, the buyers will deposit their earnest money. These funds will be held in a special account by a third-party account until closing. If the buyer backs out of the sale for a reason not specified in the contract, the seller is typically entitled to keep the earnest money.

#### Contingencies

Once we're under contract, keep in mind that we still have to clear any contingencies on the contract before we close. A contingency is when there's something that the buyer or seller needs to do for the transaction to go forward.

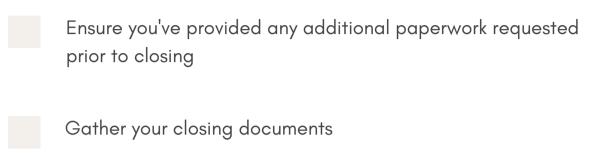

#### Closing Day

Once we get the clear-to-close, we will schedule a closing date with the title company or closing attorney. But wait, ONE more thing before you finally celebrate! The final walk-through: Right before closing, the buyer will have the right to walk through the home and make sure any agreed-upon repairs were completed and the property is in good condition.

#### **Pre-Closing Checklist**

Use this checklist to prepare for closing day.

Officially change your address (see list on the next page's moving checklist)

Cancel your Home Insurance - Dated after you close

Cancel Fuel Delivery, Sewer and Water if public

Clean thoroughly before the final walk through

Gather keys and remotes to bring to closing

Gather all of the manuals, warranties, and receipts for appliances

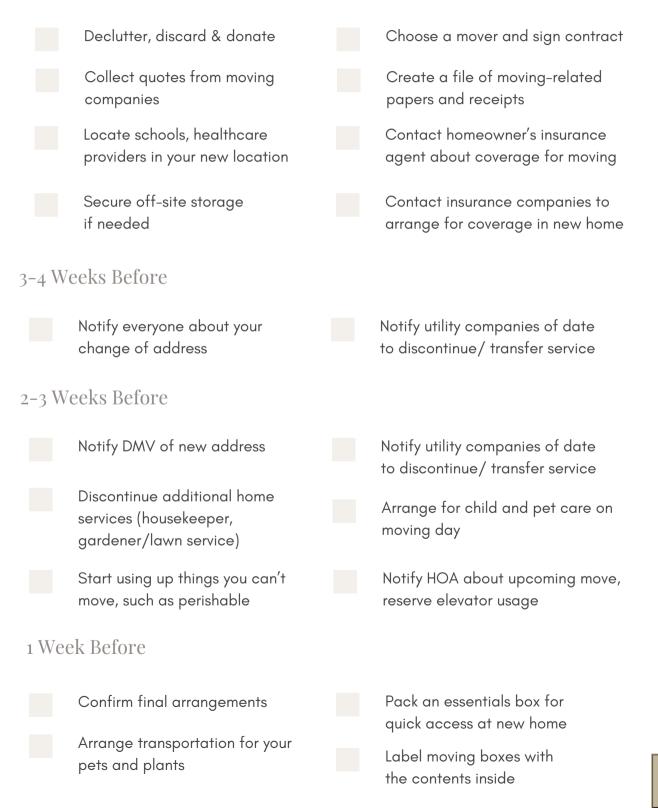

Bring your license, your keys/remotes to closing

#### Moving Checklist
